

CHARTA CAELI

Legend

Southern declination limit: -20°

Grid width for Declination: 10°
Grid width for Right Ascension: 1^h
Graduation for Right Ascension: 5^m

Grid width for galactical altitude: 15°
Grid width for galactical azimuth: 45°
Graduation for galactical azimuth: 15

Catalogues used: The Milkyway Contour Catalogue
The NGC 2000.0 Catalogue (VII/118)

Symbols used for VII/118 catalogue

- ⊕ Point of interest
- Common star
- ◐ Double star
- ⊛ Multiple star
- ⊙ Variable star
- ★ Variable star with large amplitude and high frequency
- ✱ Variable star with large amplitude and low frequency
- ⊛ Variable star with low amplitude and high frequency
- ✱ Variable star with low amplitude and low frequency
- Bright nebulae
- ◐ Dark nebulae
- ✱ Planetary nebulae
- ⊙ Open cluster
- ⊙ Globular cluster
- ✱ Flat galaxy with elliptic shape
- ◐ Galaxy with elliptic shape
- Galaxy with circular shape
